**Re: Nunavut Water Board –3BC-BAR, Licence Type B, Barnes Ice Cap Project (U. Sherbrooke)**

Date due: **June 4, 2010**

Dear Richard Dwyer

The Government of Nunavut – Department of Culture, Language, Elders' and Youth (GN-CLEY) has reviewed the documentation for the new application of Alexandre Langlois (U. Sherbrooke) for waste water disposal and general uses associated with the project.

The department does not object to this application. The project activity is planned for the summit of the Barnes Ice Cap on Baffin Island. Consequently, there are no known heritage resources that may be affected by passive microwave sensing operation.

However, the proponent must continue to appreciate that it is their responsibility to ensure no heritage resources are directly or indirectly altered from current state in the course of, or the result of, their activities.

All archaeological and palaeontological sites in Nunavut are protected by law. Should any site be encountered, the proponent must contact the Department of Culture, Language, Elders and Youth Sincerely,

Edward Atkinson, for

Douglas R. Stenton, PhD  
Director, Culture and Heritage
