

## EXECUTIVE SUMMARY

### AM CLAIMS 1-5 :-

- 1) THE PURPOSE OF THE CAMP AND DRILLING PERMITS, IS TO PROSPECT, AND HOPEFULLY DRILL COPPER-SHOWINGS IN THE AREA, TRYING TO ESTABLISH A COMMERCIAL ORE BODY.
- 2) COMPLIANCE WITH ENVIROMENTAL REGULATIONS, ARCHAEOLOGICAL AND CULTURAL SITE RULES.
- 3) PROTECTION OF WILDLIFE, WATER, AND USE OF THE LAND.
- 4) PROCURE NECESSARY PERMITS BEFORE WORK IS TO PROCEED.
- 5) THAT NO TOXIC ~~MATERIALS~~ MATERIALS WILL BE TAKEN TO THE WORK-SITE.

There is no water runoff in the area. The small bodies of water in the area, appear to be gouged-out depressions from the glaciers filled with spring runoff water.

I worked there in 1968 and have great expectations that a commercial copper-mine will be found in the area.

Yours Sincerely

A. McPherson

A. McPHERSON
