Hi Scott

According to the 2015 Inspection Report, during the inspection drums of jet fuel and propane tanks were found at the the Project Site.

Please, could you tell me whether or not you remove the drums and tanks every time the season is finished?

Please, remember that you shall:

"submit to the Board a report containing a summary description and supporting photographs of the restoration of the site of the undertaking within thirty (30) days after the earliest of (i) the day on which the undertaking is closed or abandoned, and (ii) the last day of the period authorized for the unlicensed use or deposit"

Regards

Sonia
