---

Thank you for the information provided which will be filed to our central filing system. Please refer to the conditions for waste disposal under your current licence, Part D. If it is necessary to dispose of waste at the solid waste facility in Resolute Bay then written authorization is required from the Hamlet.

Regards,

---

Dear Phyllis,

I am sorry that I am so late with my answer! During our last expeditions, we always returned our garbage back to the PCSP in Resolute Bay, and I always thought that the PCSP is taking care of the returned garbage. However, the garbage we are expecting in our base camp can be burned on the garbage dump. We can probably also burn our garbage in the field (but I don't like it very much!). We will not have bulky items, scrap metal, waste oil, hazardous waste or batteries. Most of our garbage will be from the base camp (paper, plastic etc.). The empty fuel drums, we will send back to the PCSP.

I hope that I could give you the necessary information. If I still need a permit by the Hamlet of Resolute, please tell me.

Thanks a lot und viele liebe Gruesse,

Karsten

It is noted in your submitted remote camp questionnaire that solid waste items will be returned to the Solid Waste Facility in Resolute Bay. In order to do this you are required to provide written authority from the Hamlet of Resolute Bay to utilize their facilities for drop off of waste products such as Bulky Items/Scrap Metal, Waste Oil/Hazardous Waste, Empty Barrels/Fuel Drums, and batteries. Please provide our office with the necessary paper work.

Regards,

Phyllis Beaulieu
