Subject: Water license application

Hello Ida,

I had a phone call from Shawn from your office with regards to my application for a water permit. Shawn had asked that I clarify the duration of the project, and how long we would need the water permit. The project is funded until the end of August 2012. So we would need the permit for 2010, 2011 and 2012.

Thank you,

Melissa
