RE: Licence No. 3BC-DRA1012, Review of Spill Contingency Plan Addendum

Dear Ms. Lafreniere:

The Nunavut Water Board ("NWB") received from Melissa Lafreniere, Queens University, Department of Geography, on July 7, 2010, an addendum to the Spill Contingency Plan (SCP) entitled "High Arctic permafrost stability and water quality research project, on the Sabine Peninsula" dated February 23, 2010, as required under Part H, Item 2 under the terms and conditions in Licence 3BC-DRA1012. On July 7, 2010 and September 21, 2010, respectively, the Board acknowledged receipt of the document and distributed to interested parties persons for information purposes. Comments were received from a number of parties, which the Board recommends that the Licensee consult and consider.¹

The NWB technical staff reviewed the addendum along with the comments received from the various parties and determined that the addendum is acceptable and consistent with the terms and conditions in the Licence.

Should you have any questions, please contact the undersigned at 867-360-6338 ext. 25 or by email at sjoseph@nunavutwaterboard.org.

Yours truly,

Sean Joseph
Technical Advisor
