We are not abandoning the site, only changing the classification of licence to 'water use without a licence'. Our water use is relatively light, as we are just using it for our camping/living at the site. At the close of last year's field season, all grey water was disposed of by burying, the sewage composted in a composting toilet, and all other waste either incinerated or carried out for disposal in Iqaluit.

- ☐ Application for Certificate of Completion enclosed; or
