Re: Final Inspection, 3BC-EAS1214

To whom it may concern;

I have completed a review of the cancellation application for water licence no. 3BC-EAS1214. As understood, the activity would fall under the threshold found in the regulations, as a use of water and deposit of waste without a licence and is now captured under water authorization 3BC-EAS1516.

Based on this information, the findings of the past inspection and the compliance history of the proponent, the inspector would support this request for cancellation.

If you have any questions regarding this letter please contact me directly at the coordinates found below.

Regards,

Christine Wilson
