Subject: Licence 3BC-ELL1010 – Submission of Water Licence Closure Inspection

Dear Mrs. Eberle:

The Nunavut Water Board (“NWB”) has completed a review of the above mentioned submission from Aboriginal Affairs and Northern Development Canada (“AANDC”) dated February 3, 2015. The report is based on observations made during a site visit of the closed and abandoned camp site related to the project, located in the Qikiqtani Region, Nunavut. AANDC indicates that none of the remaining infrastructure associated with the camp was present on site, and that no outstanding remediation issues were noted. AANDC recommends that this file may now be closed.

The NWB hereby informs all parties that the 3BC-ELL1010 file is now closed. Any future water use or deposit of waste associated with activities on this site will require Board authorization (in the form of either an approval to use water or deposit waste without a licence or a new water licence). Should you have any questions, please feel free to contact the undersigned.

Sincerely,

Original signed by:
