Hi Cynthia,

Thanks very much for following up.

I did contact NPC but they have not got back to me. Who at NPC would you suggest I contact, and do you suggest I email them a copy of the water license application?

Please also find attached our formal request to cancel the associated type B license sent in November.

Thanks and have a great weekend,

Mike Janssen

Subject: RE: Application for work in the Belcher Islands

Good Afternoon Phyllis,

In order for our cancellation request to proceed please find attached:

1. Cover letter requesting closure of the file
2. Application for Cancellation
3. Revised Spill Plan
4. 2013 annual report

I will contact NPC regarding the request for approval from NWB moving forward.

Thanks very much and have a great weekend,

Mike Janssen

Subject: Re: Application for work in the Belcher Islands

Thank you for your prompt reply. Please be advised that the expiry of a licence does not relieve the holder from any obligations imposed by the Licence

For 3BC-GBI1114 we require the following in order to close the file:

1. Cover letter requesting closure of the file
2. Application for Cancellation (form attached)
3. An addendum to the spill plan as indicated in H,2 of the attached licence
4. An annual report for 2013 (if there was no activity on site for 2013 please indicate same)
5. A final inspection by Aboriginal Affairs and Northern Development Canada

The NWB will create a new file for an approval without a licence under number 8WLC-GBI1516, however please note the follows:

Please be advised that under the Nunavut Land Claims Agreement (NLCA), Article 11, Section 11.5.9 and s. 76 (1) of *Nunavut Planning and Project Assessment Act* (NuPPAA), the proponent of a project governed by NuPPAA is also required to submit a project proposal document (which may include the water licence application) directly to the Nunavut Planning Commission (NPC or Commission) for the NPC's determination regarding the applicable land use planning requirements and/or directions regarding whether the project is subject to screening by the Nunavut Impact Review Board. In particular, please note that as established under Articles 11, 12 and 13 of the NLCA, NuPPAA and Part 3 of the *Nunavut Waters and Nunavut Surface Rights Tribunal Act*, until the project has completed the applicable land use planning and assessment process required by the NPC and the NIRB, the NWB cannot issue a water licence.

Consequently, if you have not already done so, please consult with the NPC regarding the applicable land use planning and assessment requirements for the project and submit the required documentation to the NPC directly. While the NWB awaits the NPC's determination and/or directions indicating that the project may proceed to the licensing stage, the NWB may commence an administrative check for completeness and a preliminary internal technical review. If, during this time, the NWB identifies deficiencies in your application, you may be notified of any additional information requirements. It should be noted, however, that the NWB's official processing of the application will commence following issuance and receipt of the relevant decision(s) from the NPC and/or NIRB.

If you require additional information please don't hesitate to contact our office to discuss with one of the licensing team.

Regards,

Phyllis Beaulieu- ΔC^h >CⁱΔ

Hi Phyllis,

The last waterboard license I am aware of for this work was 3BC-GBI1114. However, I believe that license is expired and the work has changed since that one was in effect.

Very best,

Mike

Good morning Michael, do you currently have either another Approval Without Licence or a Type B water licence for this project?
