Subject: Licence No. 3BC-GEM0911, “Melville Integrated Geoscience Project, Qikiqtani Region, Nunavut” – Canada-Nunavut Geoscience Office; Submission of the 2010 Annual Report

Dear Mr. Corrigan:

The Nunavut Water Board (“NWB”) has completed a technical review of the 2010 Annual Report for the above-mentioned project, which was received on November 29, 2010. The report was forwarded to the distribution list for information.

The annual report was found to be meeting the reporting requirements of licence 3BC-GEM0911. In addition, the NWB appreciates the inclusion of photographs to help aid in the understanding of the activities that have taken place.

However, the NWB recommends using in the future the annual reporting form which is available at NWB’s FTP site, *Username*: public, *Password*: registry, under the following link:

<ftp://nunavutwaterboard.org/ADMINISTRATION/Standardized%20Forms/> listed as 051115 Revised Standard Annual Reporting Form.

The Section *Summary of all information requested and results of the monitoring program* of report mentions that:

- No information requested, except camp location. An inspection was done by the Nunavut Water Board on July 16th 2010 and camp operations and installations were deemed conformable with rules and regulations.

I would like to let you know that the Nunavut Water Board does not conduct on site inspections. All inspection and enforcement services regarding the Water Licensees are provided by Indian and Northern Affairs Canada (INAC) Inspectors.

Should you have any questions, please feel free to contact the undersigned at (867) 360-6338 Ext. 30 or k.kharatyan@nunavutwaterboard.org, at your earliest convenience.

Yours truly,

Original Signed By:

Karén Kharatyan
