Subject: Application Update

Dear Mr. Tapatai:

The Nunavut Water Board ("NWB") received your application for a water license on December 15, 2005 for water use and waste disposal associated with the Turaavik Youth Offender Camp. Since that time our office has requested, on several occasions, the documents necessary to process your request, but have received no response. Could you please respond, in writing, indicating your intentions of withdrawing the application or continuing with the application. Please be advised that any project of this type, as described in the documents received to date, requires a water license and operating without one is in contravention of the Nunavut Waters Act.

Regards,

Original Signed By:

Phyllis Beaulieu
Manager of Licensing
