Good afternoon, email is to confirm that the above listed project proposal does not fall within the boundaries of an approved land use plan. No conformity determination required by the NPC.

Any questions, concerns, please do not hesitate.

Hello, Ida.

Attached are the various pieces for my application. I've updated the application form with the full degrees, minutes, and decimal minutes, and a new map showing camp locations is attached to the application. I think I've included everything else you need, including scans of the cheques. I will put a hard copy of everything, including original cheques, into the mail today.

By the way, in case it comes up, I will be applying for a Nunavut archaeology

permit to perform this work.

Thanks, and best wishes, Max.
