Hi Richard – thanks for checking in with us! You are correct, the two NIRB documents (12.4.3 Exemption and Screening Decision Report) are for the same project. Additionally, as the water license application is for a “Type B” license and will not (I presume) require a public hearing, it is exempted from NIRB screening pursuant to NLCA Schedule 12-1 (5).

Any other questions please let me know.

Best,

Amanda

Good afternoon;

Could you confirm for me if these two documents are for the same project? We have a licence renewal ready for the Nunavut Water Board however we would like to hear from NIRB first whether or not this project requires additional screening for the renewal or screening for the renewal is not required. I've also attached the Nunavut Water Board renewal application for your reference.

Thanks,
