Hi Phyllis,

This project began in 1959 and is planned to continue indefinitely into the future, ie. there is no end date. Also, there are no plans to change our monitoring techniques, therefore, I would like to request a permanent water licence for this work. We would of course reapply if our program changes significantly.

Thanks,

Dave

Please clarify number of years you are requesting this water licence. There are varying terms mentioned throughout the submitted documents.
