Subject: re 2010 activity of my research project

Dear Phyllis,

I just spoke to Andrew Keim in Iqaluit, and it appears that the information regarding my research project's lack of field activity in 2010 did not reach NWB, for which I apologise.

This is, therefore, to confirm that no camps were used at any of the following locations, which had been proposed in our 2010 licence application.

Devon Island - Cuming Inlet 7433'10" / 8437'30" NTS 48F
Ellesmere Island - Clarence Head 7647' / 7748' NTS 39B
Ellesmere Island - Cape Combermere 7700' / 7806' NTS 39C
Ellesmere Island - Stanfield Point 7807' / 7601' NTS 39F
Ellesmere Island - Gale Point 7813' / 7533' NTS 39F

Please accept my apologies for the oversight.

Elizabeth Turner
