Application: Mianiqijit Project

All applicants for a project proposal shall comply with the requirements listed below. The relevant sections of the plan are noted in each requirement.

GENERAL

1. **Environmental Protection: s2.4.9:** The applicant undertakes to prevent any new occurrences of pollution, garbage and contamination at the site of the development.

Yes

No

2. **Removal of Fuel Drums: s2.4.9:** The applicant undertakes to remove all drums safely from the site and dispose of the drums in a safe manner.

Yes

No

3. **New Site Restoration and Clean Up: s2.4.15 and Appendix 2, s1:** The applicant undertakes to clean up the site and restore the site to its natural condition to the greatest extent possible.

Yes

No

4. **Old Site Restoration and Clean Up: s2.4.10:** The applicant undertakes to clean up the site and restore the site to its original condition to the greatest extent possible, including any work required due to the applicant's action prior to this application.

Yes

No

5. Low Level Air Flights: s5.4.4 and Appendix 2 s3: Will the applicant avoid low-level flights?

Yes

No

- i If not, explain why such flights are or may be absolutely necessary.

- ii If such flights are or may be absolutely necessary, will they avoid disturbance to people and wildlife?

- iii If not, explain why it is not possible to avoid such disturbance?

7. **Caribou Water Crossings: s2.4.6 and map:** Will the applicant avoid, between May 15 and September 1, to construct any camp, cache ant fuel or conduct any blasting within 10 km of any Designated Caribou Water Crossing identified on the certified Caribou Protection Map?

Yes

No

ARCHEOLOGY

8. **Reporting of Archaeological Sites: s4.4.3 and Appendix 3, s2 and s4:** Will the applicant immediately report the discovery of all suspected archaeological sites to the Department of Culture, Language, Elders and Youth (QN)?

Yes

No

11. **Code of Good Conduct for Land Users: Appendix 2:** The applicant undertakes to adhere to the Code of Good Conduct at all times.

Yes

No

I, Mark Spence-Vin (name of applicant), certify that the information I have given in this application is true and correct and hereby make the above undertakings which form part of my application for a project proposal within the meaning of the Nunavut Land Claims Agreement.

BEVERLY CARIBOU HERD PROTECTION AREA

MAY 15 - JULY 15

Appendix 2

Code of Good Conduct for Land Users

1. The landscape of each camp, and other land use sites, will be restored to its original condition to the greatest degree possible. Water quality will be preserved, and no substances that will impair water quality will be dumped in water bodies. When possible, and feasible, old sites will be restored to their natural state.
2. All land users shall assist communities and government(s) in identifying and protecting archaeological sites and carving-stone sites.
3. As a general rule, low-level flights by private aircraft at less than 300 metres should not occur where they will disturb wildlife or people. Where possible, scheduled low-level flights will only take place after consultation with the appropriate communities. All land users are responsible for reporting to the appropriate authorities any illegal or questionable low-level flights.
4. All activities on the land will be conducted in such a fashion that the renewable resources of the area in question are conserved.
5. Whenever practicable, and consistent with sound procurement management, non-resident land users will follow the practice of local purchase of supplies and services.
6. Non-resident land users will establish working relationships with local communities and respect the traditional users of the land.
7. During the caribou calving, post-calving, and migrating season, land use activities should be restricted to avoid disturbing caribou, in general, and more specifically will be governed by caribou protection measures.
8. Artifacts must be left where they are found. All land users are responsible for reporting to the appropriate authorities the location of, or any removal or disturbance of, artifacts.
