INTRODUCTION

Nunavut Water Board License No. 3BC-MIO0809 was obtained in 2008 for the purpose of carrying out archaeological fieldwork between July 16 and August 4, 2008 at archaeological site LdFa-1, which is situated at the northwest corner of Mingo Lake in the interior of southern Baffin Island. This was a one-time-only project, so there was no intention to return to the location or make use of water resources in subsequent years. The site has not been visited since August 4, 2008 and will not be visited again. This report therefore simply describes the fact that there was no use of the site in calendar year 2009.

REPORT ON WATER USE

As stipulated in the NWB license, this report includes the following sections:

- a. A summary report of water use and waste disposal activities;*
- b. A list of unauthorized discharges and a summary of follow-up actions taken;*
- c. An up-to-date copy of the Spill Contingency Plan, including contact information;*
- d. A description of all progressive and or final reclamation work undertaken, including photographic records of site conditions before, during and after completion of operations;*
- e. A summary of all information requested and results of the Monitoring Program; and*
- f. Any other details on water use or waste disposal requested by the Board by November 1 of the year being reported.*
