Subject: Submission of the 2008 and 2009 Annual Reports for the “Seabirds-Prince Leopold Island” Project under Water Licence 3BC-PLI0811

Dear Mark Mallory:

The Nunavut Water Board (“NWB”) received the 2008 and 2009 Annual Reports for the above-mentioned Project on November 4, 2009. The Annual Reports were distributed for information purposes on November 23, 2009 and comments have been received from Indian and Northern Affairs Canada (INAC) on February 5, 2010. A technical review of the Annual Reports and comments found the Annual Reports to be missing some of the data required by Part B, Item 1 in Licence 3BC-PLI0811. To ensure the reporting requirements are met at all times, future reports shall address the following:

1. All Annual Reports are to be received no later than March 31 following the calendar year being reported;
2. The Licensee is advised to keep more detailed records of water use as required under Part J, Item 1; and
3. The Licensee shall provide the GPS coordinates/location for where each type of waste generated from the project is deposited as required under Part J, Item 3.

Please note that Part D, Item 4 requires documented authorization from the community of Resolute Bay prior to the backhauling of wastes; furthermore, part H, Item 2 required an addendum to the Spill Contingency Plan to be submitted within thirty (30) days following

issuance of the Licence. To date this authorization and addendum have not been received by the NWB.

Should you have any questions, please do contact the undersigned at (867) 360-338 ext. 25 or by e-mail at sjoseph@nunavutwaterboard.org , at your earliest convenience.

Yours truly,

Original Signed By:

Sean Joseph
Technical Advisor
Nunavut Water Board
