Good day Peter, your attached report for 3BC-CVF1111 was already received by our office, thanks.

For 8WLC-PRO156 we are still not in receipt of the application form for another approval without a licence which was previously sent to you. Once received we will begin processing for this season.

Obligations under your Type "B" licence (3BC-PRO0914) must be met in order to consider it for closure. This would be the submission of annual reports for 2011, 2012 and 2014. If there was no one on site for these years a cover letter indicating this would be appreciated. There is also an outstanding water use fee of \$30.00 to be paid for the last year of the B licence.

Regards,

Phyllis Beaulieu- ΔC^h >CⁱΔ

Good morning Phyllis,

Thank you for your email. I have to apologize that I forgot to send you a report for our 2014 fieldwork. I will send it to you as soon as I can together with the outstanding fees.

I am sorry to hear that no reports were sent for the years 2011 and 2012. That was before I started working at CASP. As far as I know there was no fieldwork in 2012. In 2011 one of our geologists, Stephen Rippington, joined an expedition by the BGR (Bundesanstalt fuer Geowissenschaften und Rohstoffe, Germany). There was a report submitted by Dr. Lutz Reinhardt (BGR) for the NWB licence 3BC-CVF1111 for their "Expedition CASE 12". I attached

this report to this email. Please let me know if you require a separate report or coverletter stating the Stephe R joined the BGR expedition in 2011.

Best wishes,

Peter Hülse

Subject: Re: Water license

Good day Peter, attached for your use is a copy of the application form for "approval without a licence" which you can use to apply for this season. I note that 2 documents were received on January 19th, 2015, one being a map and the other an Inuktitut summary. I believe you're waiting of the application form to complete the application.

For 3BC-PRO0914 there is a requirement to submit water use fees for June 17, 2013 to June 16, 2014 and for June 17, 2014 to the expiry of that licence. The outstanding amount is \$60.00.

Also noted is that an annual report was not received for 3BC-PRO0914 for the years 2011, 2012 and 2014. These should be provided and if no work was carried out on the site for any of these years then a cover letter indicating same should be filed with our Board.

Regards,

Dear Phyllis,

How are you?

I am writing to you regarding our expired water license **3BC-PRO0914** and the application for the "Approval for the use of water without a license" for the summer of 2015.

1) Expired water license **3BC-PRO0914**: This license expired but I was informed by Andrew Keim that it needs to be officially cancelled. Could you provide information on how to do that, please?

2) Application for the "Approval for the use of water without a license" for the summer of 2015: I would like to renew our previous license **8WLC-PRO1415** will expire on February 23rd, 2015.

Unfortunately, I have problems loading the NWB webpage. Could you forward the required documents?

Many thanks for your help and best wishes,

Peter
