

## **Nunavut Water Board Licence (3BC-PRO0914)**

### **Planned activities for 2013**

We were unable to undertake our planned research activities in 2012, so we plan to carry out the work in July 2013. There are no changes to our planned campsites (outlined below), so we do not need to make any amendment.

We also plan to spend one week based out of the Weather Station at Eureka, Ellesmere Island. During this time, we will carry out fieldwork by ATV in the Eureka area, and by helicopter at 4 sites on Ellesmere and Axel Heiberg Islands. However, no camps will be set up and no water will be taken or left at these locations.

### **Planned fieldcamps (no change to permit and amendments made for 2012)**
