Good afternoon Neil – I am preparing your file for review and note that your camp location coordinates are not in degrees, minutes, seconds. Please provide these so I can get the file out today. We are not able to process your file any sooner than already indicated. Type B applications to the NWB simply means that they don't require a public hearing but can be processed without. We are still bound by the 30 day review, sorry to say. It is your choice if you wish to continue with your project while the file is currently being processed.
