**Subject:** RE: Notice of Part 4 Screening for Joyia Chankungal's Research Project Proposal (07YN039)

Thank you very much for the update Leslie.

Before everyone submits their comments at the end of this month I would like to bring to your attention two changes to the project activities list below:

- 1) Our camp will no longer be situated along Mathiassen River. Upon inspection of the air photos that are available for the area, and advice from the hamlet of Coral Harbour, our new camp location will be situated along a tributary of the Kirchhoffer River (see attached file for exact location and co-ordinates).
- 2) We will have up to 20 people staying in camp at any given time. Final tallies and names of personnel are currently being finalized. Should the committee require a copy of the finalized list, please don't hesitate to let me know.

Finally, we have arranged for a twin otter to be charter through Polar Continental Shelf for the period of June 10-16th. The purpose of this flight time is to transfer and cache our fuel (to be used for the helicopters that will be stationed in camp) and camping gear from the hamlet of Coral Harbour to the newly proposed camp site.

Considering the screening stages our application must still go through, would the committee advise whether the mid-June time line for fuel caching is reasonable?

Many thanks for your time, consideration and patience in this matter. Should you have any further comments, questions and/or concerns, please do not hesitate to contact me (Joyia) directly.

Sincerely yours,

Joyia Chakungal (project co-leader from Canada - Nunavut Geoscience)  
 and  
 Mary Sanborn-Barrie (project co-leader from GSC Ottawa)

**Subject:** Notice of Part 4 Screening for Joyia Chankungal's Research Project Proposal (07YN039)

Dear Dr. Chakungal:

On May 3<sup>rd</sup>, 2007, the Nunavut Impact Review Board (NIRB) received an application for your "Southampton Island Integrated Geoscience" project from the Nunavut Research Institute.

The project activities include:

- Daily field work supported by two helicopters
- Field camp set up along the Mathiassen River
- Approximately 15 personnel staying in camp
- Temporary airstrip
- Camp mobilization via Twin Otter plane
- Bedrock and surface mapping of the area
- Aeromagnetic survey of the area

The Board has assigned this project proposal file number 07YN039. All documents received and pertaining to this project proposal can be obtained from the NIRB's ftp site at:

[http://ftp.nunavut.ca/nirb/NIRB\\_SCREENINGS/ACTIVE\\_SCREENINGS/07YN039-Joyia\\_Chakungal/1-SCREENING/](http://ftp.nunavut.ca/nirb/NIRB_SCREENINGS/ACTIVE_SCREENINGS/07YN039-Joyia_Chakungal/1-SCREENING/).

Please review the attached letter for a comprehensive understanding of the Part 4 Screening process related to the project proposal.

5/15/2007

located 58 km NNW of Coral Harbour on a tributary of the Kirchoffer R  
(~50 km E of west boundary of mapping, ~75 km W of NE coast)
