Subject: RE: 3BC-SSS--- Geological Survey of Canada - Stream Sediment Sample Survey

Hi Erik,

The competition closed a few days ago and we are evaluating the bids. At this time we are assuming that the research project will be going ahead, probably in late July or August.

I would like to proceed with the water licence. There is no change at this time in the plans we outlined last year, other than a more amenable season.

Thank-you for following up on this.

Marty

Subject: 3BC-SSS--- Geological Survey of Canada - Stream Sediment Sample Survey

Hello,

I am writing to follow up on an e-mail sent to the NWB last year from Mosha on October 17, 2011, regarding the application submitted to the NWB last year for the proposed research project under the federal Geo-Mapping for Energy and Minerals (GEM) Program. In the E-mail Mosha had indicated that the proponent informed NRI that due to no contactors willing to bid on the on the sample collection that field dates will now have to be postponed until Mid-2012.

I am inquiring to see if you still want to proceed with the water License?

Erik
