Subject: Rescheduling Stream Sediment Survey Activity

Good afternoon Ms Porter,

Our intention to carry out the collection phase of a geochemical stream sediment and water survey during the fall has changed. We now propose to carry out this survey in 2012, either in June or July, depending on local conditions such as caribou migration and weather. Can you let me know how this will affect our current Water Licence Application? Will a new application be required? Thank-you very much.

Marty
