

June 27, 2007

Phyllis Beaulieu
Manager of Licensing
Nunavut Water Board
P.O. Box 119
Gjoa Haven, NU X0B 1J0

Nuna M&T Services Ltd. is currently operating the Tehek Lake Construction Camp under Nunavut Water Board Licence # 3BC-TEH0707.

By way of this letter and enclosures, I am applying for an amendment and extension to the license as outlined in the attached application.

The amendment is to allow the camp to be relocated further up the newly constructed road to a location near kilometer 47.5. A full description and mapping is attached.

The original permit application for the operation of the camp was reviewed and screened by Nunavut Water Board, Community and Government Services, NIRB and was posted for general comments. Comments were received by several departments and all comments were responded to by Nuna M&T. Copies of all comments and responses are included in this application.

The method of operation of the camp is not changing other than we will not be drawing water from a lake. All water for use in the camp is being hauled from the community of Baker Lake therefore we do not require water to be taken from any other source.

I have spoken to Leslie Payette of the Nunavut Impact Review Board and she has indicated it is not likely NIRB will screen the amendment to the water license as they have already screened and approved the original license. She also mentioned that if INAC submits the new land use application to NIRB, it should be a fairly quick process, again because there is no change in the operation.

If you have any questions on this application, please contact me.

Regards,

Neil Thompson

6. WATER USE

- ☐ To obtain water
 ☐ Flood control
☐ To cross a watercourse
 ☐ To divert a watercourse
☐ To modify the bed or bank of a watercourse
 ☐ To alter the flow of, or store, water
☒ Other (describe): Haul water from Baker Lake.

7. QUANTITY OF WATER INVOLVED (cubic metres per day including both quantity to be used and quality to be returned to source)

- Water use** ☐ 100m³/day or less
☐ Greater than 100m³/day; if greater, indicate quantities to be used for each purpose (camp, drilling, etc.)

Water returned to source
0 m³/day

8. WASTE (for each type of waste describe: composition, quantity (cubic metres per day), methods of treatment and disposal, etc.)

- ☒ Sewage
 ☒ Waste oil
☒ Solid Waste
 ☒ Greywater
☒ Hazardous
 ☐ Sludges
☒ Bulky Items/Scrap Metal
 ☐ Other describe):

9. OTHER PERSONS OR PROPERTIES AFFECTED BY THIS UNDERTAKING (give name, mailing address and location; attach if necessary)

Applications have been made for Land Use Permits and quarry permits for the construction of the road. Agreement in place with Hamlet of Baker Lake for disposal of sewage, supply of water, disposal of garage. See attachment.

Land Use Permit

DIAND ☒ Yes ☐ No If no, date expected July 31, 2007

Regional Inuit Association ☒ Yes ☐ No If no, date expected _____

Commissioner ☒ Yes ☐ No If no, date expected _____

10. PREDICTED ENVIRONMENTAL IMPACTS OF UNDERTAKING AND PROPOSED MITIGATION MEASURES (direct, indirect, cumulative impacts, etc.)

Camp currently operating under License 2BC-TEH0707. Existing license was screened by NIRB. See attachment.

NIRB Screening ☒ Yes ☐ No If no, date expected _____

11. INUIT WATER RIGHTS

Will the project or activity substantially affect the quality, quantity, or flow of water flowing through Inuit Owned Lands and the rights of Inuit under Article 20 of the Nunavut Land Claims Agreement?

NO

If yes, has the applicant entered into an agreement with the Designated Inuit organization to pay compensation for any loss or damage that may be caused by the alteration. If no compensation agreement

has been made, how will compensation be determined?

12. CONTRACTORS AND SUB-CONTRACTORS (name, address and functions)

NUNA M&T Services - Prime Contractor- Road Construction
 NWT Rock - Drill/Blast Contractor
 Toromont Equip. - Mechanical repair
 Fountain Tire - Tire repair

13. STUDIES UNDERTAKEN TO DATE (list and attach copies of studies, reports, research, etc.)
