**Subject: Submission of the 2008 and 2009 Annual Reports for the “Seabirds-Tern Island” Project, Licence No. 3BC-TER0811**

---

Dear Mark Mallory:

The Nunavut Water Board (“NWB”) received the 2008 and 2009 Annual Reports for the above-mentioned Project on November 4, 2009. The Annual Reports were distributed for information on November 23, 2009 and comments have been received from Indian and Northern Affairs Canada (INAC) on February 5, 2010. The comments received in addition to reviews conducted found the reports to be missing some of the data required by Part B, Item 1 in Licence 3BC-TER0811. To ensure the reporting requirements are met at all times, future reports are to be received no later than March 31 following the calendar year being reported and shall include or address the following items:

1. The Licensee is advised to keep more detailed records of water use as required under Part J, Item 1; and
2. The Licensee shall provide the GPS coordinates/location for where each type of waste generated from the project is deposited as required under Part J, Item 3.

Also, in review of the Licence, it was noted that Part H, Item 1 required a Spill Contingency Plan to be submitted within sixty (60) days following issuance of the Licence. The Annual Report indicates this is currently retained by INAC; however, a complete Spill Contingency Plan that meets the requirements of Part H, Item 1 is also required by the NWB.

Should you have any questions, please contact the undersigned at (867) 360-6338 ext. 25 or by email to [sjoseph@nunavutwaterboard.org](mailto:sjoseph@nunavutwaterboard.org) at your earliest convenience.

Yours truly,

*Original Signed By:*

Sean Joseph
