Hello Phyllis and David,

Please see below the DND's schedule at Nanisivik starting this summer 2014 and e-mail dated January 22, 2014 . We are waiting to know the reason for not renewing this licence even though we have submitted all the supporting documents long time back. The delay will also cause huge impact on DND's planned schedule. I will appreciate if you confirm this e-mail and inform us the current renewal status of the Water Licence.

According to SAO of the hamlet Arctic Bay, DND did a presentation to the Hamlet council on October 28, 2008 on their program and expecting some facilities from the Hamlet, where water might be an important item.

Please confirm if you need anything from us in order to renew this water licence.

Thanks.

Bhabesh

Subject: RE: Water Use Licence for the Hamlet of Arctic Bay

Hi Bhabesh,

We would need about 11.4 m3 /day for a 60 person construction camp.

Year	<u>Approximate</u> # days on Site	<u>Approximate</u> Yearly Total Volume of Water/Wastewater (cubic metres)
2014 (late Aug)	30	342
2015	120	1368
2016	120	1368
2017	30	342

The contract for construction has not been tendered/awarded so we do not have a concrete schedule, but it would be reasonable to expect the contractor to propose a similar schedule.

Regards,

Tamara

Hi Tamara,

I have two questions:

1. How much water you need annually and how long?
2. From when you need to start?

Thanks.

Bhabesh

Subject: RE: Water Use Licence for the Hamlet of Arctic Bay

Hi Bhabesh,

Thank you for taking the time to speak with me today; I wanted to follow up our phone conversation with a quick email.

As I explained, the Department of National Defence is currently in the planning and design phase for the construction of the Nanisivik Naval Facility (NNF). During the preliminary planning it was determined through consultation with the Hamlet of Arctic Bay that the community would be willing to enter into an agreement to supply the NNF Construction Contractor with water and wastewater services for the construction camp. During the Nunavut Impact Review Board evaluation process DND received comments from AANDC's Ian Parsons highlighting that the community of Arctic Bay did not have a valid Water Use Licence. This was confirmed by the Nunavut Water Board's Director of Technical Services, David Hohnstein. Our project has been advised by both the NNB and AANDC that as long as the Hamlet of Arctic Bay's Water Use Licence is expired the Hamlet would not be in a position to enter an agreement to supply water to NNF's contractor. Further to this, if we did receive water/wastewater services from the Hamlet while their licence was expired it would be in further contravention of the Act. Today's phone call to you was to give us some idea as to when you expect Arctic Bay's Water Use Licence to be renewed; thereby when the Hamlet would be in a position to enter an agreement for water/wastewater services.

Thanks again for your help.

Regards,

Tamara
