Good afternoon Bhabesh,

Just a bit of clarification on the municipal files. Yes, we are moving files from our consultant, but only as required so that we may distribute the workload on our end as even as possible. So if there has been no movement on specific files, this re-assignment won't likely take place until the process resumes and a technical advisor is required for the file, at that time, the nwb will advise of the new advisor working on the file.

I hope this helps clarify our process. As you are aware, Sean Joseph has been reassigned the Arctic Bay file, however other files (for example Cape Dorset) are still with the consultant for minor administrative duties.

If you have any further questions/inquiries, please do not hesitate to give me a call.

Regards,

David Hohnstein

Good Morning,

I understand from David and also from Phyllis that NWB is pulling files from the Consultant Karlette and distributing to own Technical Advisors. I think this process is complete. We will be benefitted if you please send me the name and contact e-mail of the officer who is dealing which files for Baffin Region.

As you see the message below from David that some licences renewal are so important and critical in nature that National Program of the Federal Agencies like DND etc. are involved.

Thanks.

Bhabesh

Hi Sean,

just a quick not for you that Bhabesh gave me a call early this afternoon, looking for a status on the ARC municipal licence application. Looking to move this one along and hopefully be able to distribute for comments, and barring any deficiencies, look to whether the NWB can issue a renewal. DND is relying on the licence to some degree for their project construction start this spring/summer.

Regards,
