Richard

5 years term Water Licence is also fine for us at the present time. Since we are in the transition in developing and standardizing of the O&M manuals, the existing O&M for the WTP could be used to operate the facility until the new version is available. This item could be included as the condition of the new water licence.

I have answered all the questions requested to proceed renewal the Water Licence of Arctic Bay.

If any question, please contact me.

Thanks

Bhabesh
