Subject: Re: Arctic Bay Sewage Lagoon

Good morning Bhabesh.

The AANDC inspector does not approve the commissioning of new infrastructure.
I suggest you as regional engineer are responsible for this task.
Please keep us informed on your progress.

Thanks
A. Keim

Hamlet of Arctic Bay wants to commission the new lagoon because construction is completed.

They already received your approval for decanting the old lagoon. They want to start using the new lagoon right way during decanting and also to continue afterwards.

Once Old lagoon decanting is completed, it will be decommissioned. The contractor is at the location.

At this stage your approval to commission the new sewage lagoon is important. We all are waiting for your response.

Please reply this email as your earliest.

Thanks Andrew.

Hi Andrew,
I called you but did not go through. I like to talk on this letter. I will appreciate if you return my call.
Thanks.
