Subject: Drainage of pond- land development

Hamlet of Arviat will be going further into the project to drain the pond within the next few weeks due the spring-thaw. We have had poor drainage each year, so a different approach is needed and quickly. If there is no conclusions by the end of this month, we will assume there is no concerns and continue as planned.

For further information, Community Government & Transportation has applied to transfer the bed of water body from INAC. If you have any questions or comments, feel free to contact myself at (867) 857-2841 or 857-2519 via fax. Thank you.
