Good Morning Rick,

Good luck with your decant and the new lagoon.

Scott

Good Day Scott;

Well its that time of the year for the Hamlet to decant the sewage lagoon.
Last June the Hamlet decanted 7.39 million gallons of sewage on to the wetland. This volume allowed us to manage the lagoon until mid September 03 before we had to decant once again.

This year the Hamlet is requesting permission to decant approximately 7 million gallons over a 3 to 4 week period this June & July. We anticipate having the new cell completed before September 04 which will eliminate the need to decant on to the wetland this fall.

If you require additional information please feel free to contact me at the address.

Regards,

Rick Van Horne, SAO

Hamlet of Arviat
