

**ADVERTISEMENT  
NUNAVUT WATER BOARD  
DEPARTMENT OF TRANSPORTATION  
PUBLIC MEETING**

---

**DATE:** Thursday, August 21, 1997.  
**TIME:** 7:00 PM  
**LOCATION:** Baker Lake Community Hall

**PURPOSE OF THE MEETING:**

- The Department of Transportation will inform the public on the results of Environmental Audit and Phase I Environmental Site Assessment performed at the Baker Lake airport in 1996. Based on this years findings, a remediation plan will be developed and presented.
- To inform the public on the role of the Nunavut Water Board as an institution of public government, responsible over the regulation, use and management of water in the Nunavut Settlement Area;
- To update the community of recent and future activities of the Nunavut Water Board;
- To obtain feedback from the residents of Baker Lake on concerns they may have in regards to there water supply, and waste disposal facilities;
- To present to the community work recently completed on the Wetlands project;
- To inform the public on the use of wetlands as an alternative option for sewage treatment; and
- To obtain feedback from the community on the wetlands in Baker Lake.

Everyone is encouraged to attend. The presentations will be in English and Inuktitut, as much as possible, and a translator will be on hand to provide assistance. Coffee, tea, and cookies will also be served.
