**Pages:** 1

Hi Dionne,

I was just looking through my files here and I came across the "Improvements to Water Supply Facilities - Baker Lake".

I guess they sent it to Paul for approval. Why..... I am not sure, but he has forwarded it on to me to send to you. I think our clerk has already sent you a copy but if you don't come across it, let me know and I will re-send you one.

Paul also had some comments that should have been sent on to you with the report. I've read through it and I don't have any concerns (not being an engineer and all).

Keep us up to date on this one (ie modification or amendment approval) so Paul can inspect if he needs to. Have a great new year!

Shannon
