Mr. Graeme Dargo
Superintendent of WRED
Rankin Inlet, NT

fax: 1-819-645-2346

Mr. Dargo:

In regular meeting of Council held on 1997 February 06, the following resolution was made:

Resolution 025/97/02/06

"That the consultant's report be forwarded to the Superintendent of WRED, requesting that immediate action be taken to have the NWTPC's power plant area cleaned-up. The level of contamination are unacceptable, and the run-off is polluting our water supply. A cc copy is to go to Mr. Kevin O'Brien, MLA and Mr. Tom Kudloo, Nunavut Water Board."

Please review this report and inform Council as to what action your department plans to take in getting this area properly cleaned-up.

People's health are at risk, as this Report so clearly states! Council does not want a disaster, due to the NWTPC's negligence in this regards.

Yours sincerely

William Noah
William Noah
Mayor

cc: Mr. Kevin O'Brien
Mr. Tom Kudloo
