2005 January 28

Mr. Tom Kudloo  
Nunavut Water Board

Fax: 793-2332

Dear Tom:

In Special Meeting of Council held on 2005 January 27, Council discussed the inadequate sewage lagoon system for the treatment of raw sewage in Baker Lake. Council is concerned that our lake has become so polluted that it is now beyond repair, and that the Water Board should be looking into an alternate source of fresh water to service our growing community.

Could you please inform Council what corrective measures will be taken to ensure the safety of our portable water supply?

Sincerely

David Aksawnee  
Mayor
