Re: Hamlet of Cambridge Bay License #NWB3CAM

As per your letter dated February 18th, 2002 here are some comments we would like to inform you about.

1. Please find enclosed the Annual reports for 1997-2000
2. A map detailing where the lagoon, water lake, waste sites, etc are located
3. The best digital map that we were able to produce of the sites
4. The Sewage Lagoon does not form any concerns
5. The Solid Waste Site – CG&T intends to provide consultancy services to identify the shortcomings and recommends the corrective action
6. CG&T plans to embark on a capital project to replace the 25 year old 3 km water supply pipeline
7. The study done by the Dept of CG&T on the solid waste site and the sewage lagoon was submitted to your office about a year and a half ago (1½).

Please advise as we would like to finally be able to get our license straightened out. If you have any questions please do not hesitate to contact our office, thank you.

Sincerely yours,

Elwood Johnston
