Attention: Phyllis Beaulieu, Manager of Licensing

RE: Hamlet of Cambridge Bay Water Licence Renewal —Licence Number 3BM-CAM0914

Dear Ms. Beaulieu:

I am pleased to submit the enclosed Water Licence Renewal Application for the Hamlet of Cambridge Bay on behalf and authorization. The Hamlet's current licence expires on March 31, 2014.

We are aware of the requirements of some documents for the Renewal Application, some are attached here and some will be submitted once completed.

Attached Documents:

- ✓ Waste monitoring test results for the year 2013 – (samples taken on June 25 and Aug 01)
- ✓ Bacterial Test summary and sample results for 2013- (attached)
- ✓ As-built drawing of solid waste facility showing location plan
- ✓ QA/QC plan for sewage Lagoon and solid waste facilities

Follow up submission:

- Annual Report of water intake and waste disposal 2013 - submission by March 31, 2014
- O&M manuals for sewage and solid waste facilities – Draft received, submission by March 31, 2014
- Spill Contingency plan for sewage waste and facilities – submission by June 30, 2014
- As-built drawing of new intake line & pump house – submission by Sep 2014 when completed.

Given importance of this application, we request that the Nunavut Water Board grants this application approval with our plan of those documents with the board as outlined in the General Conditions. Based on sampling completed in summer 2013, there are evidences to support that treatment of effluent occurs within retention cell and wetland area. Please refer to the results summary included in this application. A cheque for the application fee of \$30.00 is included in this application. We will provide the outstanding documents to the Board immediately upon their completion.

Yours sincerely,

Shah Alam, P. Eng.
