Good afternoon,

I am the Technical Advisor assigned to this file. A preliminary technical review has identified deficiencies that have to be addressed before the Application can be processed; issues identified and information required are detailed below:

The authorization letter confirming that the Licensee representative is NWS Facilities Manager was not submitted.

information required: Authorization Letter.

Issue No.2: 2012 Annual Report – Certificate of Analysis (September & October)

Information required:

Detail any remedial measures employed regarding the acidic effluent;

Inform the date on which the Inspector was notified of this issue.

- The Analysis's Certificate of the sewage effluent of October 2012 is missing
