nwb3cam

Hi Rita

good news I guess..they got our servers behaving properly again, so we can work on documents, printers are next. So, I have done the Cam Bay roll up, and these are attached. We can fax up a signed copy later if needed.

We trust comments are useful. As noted, Philippe is away, and he knows the community the best. We would normally have to screen municipal projects, so we hope that all concerns from all reviewers will be identified and adequately taken care of through appropriate licence terms and conditions.

Okay, I'll wait to send the file to Dionne for technical review till I get your comments. Thanks.

Rita
