Subject: RE: Hamlet of Cambridge Bay Water Intake Modifications

Good morning Mr. Foster

Email confirming that the above listed proposal falls outside an approved planning boundary, therefore a NPC conformity review is not required. Any questions, concerns, please do not hesitate.

Brian Aglukark, NPC

Subject: Hamlet of Cambridge Bay Water Intake Modifications

Hello Brian,

Stantec, previously FSC Architects & Engineers, is undertaking upgrades to the existing water intake structure for the Hamlet of Cambridge Bay. As part of the process, we are required to submit to the Nunavut Water Board required information regarding the upgrades. Part of this process is contacting the Nunavut Planning Commission (NPC) to attain written confirmation from NPC stating that conformity is not required as the upgrades to the water intake structure are for the Hamlet of Cambridge Bay itself.

Attached is the current water license as well as design drawings indicating the location of the proposed modifications to the intake structure.

Please submit written confirmation, if you have any questions or comments, please do not hesitate to contact me.

I thank you in advance for your response and attention to this matter.

Regards,

Arlen Foster, EIT
