**Attention: Phyllis Beaulieu, Manager of Licensing**

Dear Mrs. Beaulieu:

**Reference: Hamlet of Cambridge Bay Water Licence 3BM-CAM0914 – Water Licence Amendment**

On behalf of the Hamlet of Cambridge Bay, we are pleased to submit the following Water Licence Amendment. Stantec is in the process of completing upgrades to the existing pumphouse and emergency truckfill building for the Hamlet of Cambridge Bay. The following Amendment Application form and attached documents detail the planned upgrades and impacts associated with the existing water licence.

A summary of the proposed upgrades and amendment has been attached in both English and Inuktitut.

As the project is currently being issued for tender, with the construction phase to run from July 2012 until substantial completion in the fall of 2012, we have attached *Issued for Tender* drawings signed and stamped by an engineer registered to practice in Nunavut. *Issued for Construction* drawings can be submitted following Tender Award.

Similarly, a revised *Spill Contingency Plan* and *Operation and Maintenance Plan* will be prepared for the intake pumphouse and submitted to the NWB upon commissioning of the facility.

We hope that the attached documents meet your requirements at this time and request that the water licence be amended accordingly. If you require any further information or have questions, please do not hesitate to contact me.

Sincerely,

**STANTEC ARCHITECTURE LTD.**
