Answer: exp has prepared a Quality Assurance/Quality Control Plan which is attached in **Appendix- E**.

Hamlet is doing extended sampling program following CGS guidelines. The test results are attached in **Appendix-F**.

The Hamlet annual reports from 2003 to 2012 are attached in **Appendix-G**.

Signs have been ordered and anticipated to be installed by the end of October, 2013.

In these circumstances, we request to renew the license for five (5) years starting from March 2, 2010 so that Hamlet can effectively and efficiently operate their Environmental Facilities under the proper guidelines.

Please keep me in the loop of the approval process and if you have any issue or concern, please contact me at any time.

Thanking You.
