Re: Hamlet of Cape Dorset Water Licence # 3BM-CAP0810-Type B: Renewal and Amendment application

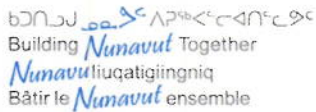

We are submitting an Amendment and Renewal Water Licence application of the Hamlet of Cape Dorset excluding P lake Sewage Lagoon. Community and Government Services is still exploring options for the most appropriate long term solution to bring this sewage lagoon into compliance.

Dalhousie University is conducting a study to determine the wetland's treatment capacity this summer. This study will inform if/what upgrades are required to the lagoon. Following the outcome of this study, the next step will be taken.

Therefore, I am writing you to confirm to void all the Water licence # 3BM-CAP 0810 renewal applications submitted previously for the Hamlet of Cape Dorset because we are excluding the P lake sewage lagoon from the current renewal application.

Therefore, to renew and amend the existing Water Licence #3BM- CAP 0810, the following documents are attached for consideration:

1. Renewal and Amendment Water Licence Application
2. O&M manual of the existing Sewage Lagoons (3 cells and emergency cell)
3. O&M manual of the Waste (Land fill and Metal Dump) sites
4. O&M manual of the ground water monitoring wells
5. QA/QC Plan
6. Spill Contingency Plan
7. The Plan for Compliance
