

**WATER BOARD UPDATE
FOR
MARCH 21 1995**

Agenda Item: 215-

1643

SUBMITTED BY: GREG COOK, SPECIAL PROJECTS OFFICER

TOPIC: CAPE DORSET MUNICIPAL LICENCE APPLICATION

STATUS: NO CHANGE, ie neither screening nor TAC review have started, as B. Collins is still waiting for information requested. We are still conducting these 2 processes jointly for B licences, so there is no point in starting one without the other.
-However, once initiated, we will have to screen this under CEAA.

RECOMMENDATIONS: *Hold off until needed licensing information is in. B. Collins should keep after officials to provide required data.
