

**WATER BOARD UPDATE
FOR
FEBRUARY 28, 1996**

SUBMITTED BY: GREG COOK, SPECIAL PROJECTS OFFICER

TOPIC: CAPE DORSET MUNICIPAL LICENCE APPLICATION
-SCREENING N5-3-1643

STATUS: Not sure whether WB or I put this on the agenda, but there is still NO CHANGE, ie neither screening nor TAC review have started, as B. Collins is still waiting for information requested.

IF received before Nunavut Boards are operating, presume licence and screening will be done here, otherwise their boards will be doing this.

RECOMMENDATIONS: *Hold off until needed licensing information is in, and invite Nunavut Water Board transition team to participate?
