Summary - Résumé

Called Rick to discuss the status of drawings for Cape Dorset and Pond Inlet ^{as built} for licence purposes. Rick advised that the ^{as built} drawings for the solid & sewage waste systems ^{Pond Inlet} were being developed, but are slow in coming. He thought that it may take up to a year to complete. He has the drawings for the water supply and will send them.

He said that the ^{as built} drawings for the Cape Dorset ~~for~~ sewage and solid waste systems are expected to be ready this summer.
