Re: Water Test Results

Dear Philip:

As per a conversation today with our Foreman, Leon Nasson, he has indicated that you have not been mailing the results of the weekly water samples to us. We are concerned about this and would like reassurance from your office that the Hamlet of Cape Dorset will be contacted at once if the results are not favourable so that proper corrective action can be taken.

We would appreciate receiving regular results from you once the workload in your office eases somewhat.

Please call if you require further clarification.

Sincerely,

Art Stewart,

Senior Administrative Officer
