

Memo to File

Date: 26 April 2005	
Licence/File No:	Project: NWB3CAP

From: Jim Wall, Tech Advisor (Municipal)	Organization: Cape Dorset
--	---------------------------

Re: Cape Dorset Sewage Lagoon Decant

Notes:

Cape Dorset requested an emergency decant of its sewage lagoon from NWB. The request was forwarded to INAC (see attached emails), as notification of INAC Inspector is required prior to the decant occurring. Environment Canada was also appraised. EC has requested additional information to be requested from the Licensee (as built of repairs carried out in 2004).

Action Required: TA1 to prepare letter, to be sent to Municipality of Cape Dorset.
